PROFESSIONAL SUMMARY

Business Administration graduate with a **CGPA of 9.0/10** and hands-on experience in **retail operations, team supervision, and customer-facing business processes**. I combine a strong grounding in **sales strategy, inventory management, brand positioning, and customer relationship management** with self-developed technical skills in full-stack web development and business automation. Experienced in cross-departmental coordination and operational data tracking from frontline supervisory work in a manufacturing environment. Actively building digital tools that solve real retail and business problems, including e-commerce platforms, CRM systems, and AI-powered management tools. A self-directed learner who takes initiative, adapts quickly, and delivers.

KEY COMPETENCIES

- | | | |
|--------------------------------------|---------------------------------|------------------------------------|
| ▸ Retail Operations & Sales Strategy | ▸ Inventory & Stock Management | ▸ Customer Relationship Management |
| ▸ Brand Positioning & Merchandising | ▸ Team Supervision & Leadership | ▸ Cross-Departmental Coordination |
| ▸ E-Commerce & Digital Retail Tools | ▸ Data Analysis & Reporting | ▸ Business Process Improvement |

WORK EXPERIENCE

Sales Associate & Administrator — ZCC Centenary Sales Shop

2021 – 2023

ZCC Centenary Sales Shop | Zimbabwe

Customer-facing sales and administrative role within a faith-based retail environment, directly developing competencies in sales management, financial auditing, customer relationship management, and inventory control that are transferable across retail and administrative settings.

- **Sales & Customer Service:** Managed the end-to-end sale of church merchandise and related items, engaging customers with product knowledge and ensuring a positive in-store experience aligned with organisational values.
- **Auditing & Financial Accountability:** Conducted regular auditing functions to ensure accuracy in financial records and transactions, building a strong foundation in financial compliance and accountability within a retail context.
- **Inventory & Stock Control:** Monitored and managed stock levels of shop items, supporting accurate record-keeping and ensuring product availability — skills directly applicable to retail stock and supply management.
- **Administrative Operations:** Supported the day-to-day administrative functions of the shop, contributing to smooth operational workflow and organisational efficiency across multiple responsibilities.

EDUCATION

Bachelor of Business Administration — Business Administration & Management

June 2023 – March 2026

Adikavi Nannaya University (AKNU), Rajamahendravaram | **CGPA: 9.0 / 10.0**

Ordinary Level (O-Level)

2018

- Mathematics — A | Accounting — A | Geography — A | History — A | Integrated Science — A | Pure Biology — B | English Language — B

RELEVANT PROJECTS & DIGITAL WORK

Delivered Client Projects

Stack: Laravel, Filament PHP, Tailwind CSS, MySQL

- Choxy Academy (choxydeeacademy.co.zw)** — School ERP covering enrolment, student records, and academic management — demonstrating ability to build and manage complex data systems for organisations.
- Mightybreeze (mightybreeze.co.zw)** — Dynamic business website and portfolio with lead-capture backend — directly analogous to retail digital presence and customer enquiry management.
- Emmitak (emmitak.co.zw)** — Dynamic portfolio and business showcase site for client.
- Decor-Sathi** — Full-stack e-commerce platform for home décor retail — product listings, cart, checkout flow, and order management.

AI-Powered HR Management System [Ongoing]

Stack: Laravel, MySQL, Livewire, Tailwind CSS, Groq API

Full-stack HR platform with a conversational AI interface for report generation. Managers type plain-English prompts — e.g. "list all unpaid employees last month" — and the system queries, compiles, and returns clean reports instantly. Demonstrates ability to bridge management information needs with technology solutions.

WhatsApp Chatbot System [Completed]

Stack: WhatsApp Business API, Laravel, MySQL

Automated customer service chatbot handling real-time queries, order updates, data collection, and follow-up communication — directly applicable to retail customer engagement and CRM automation.

TECHNICAL SKILLS

Retail & Business Tools

Microsoft Excel, Power BI, ERP concepts, CRM systems, Business Statistics

Web & Development

React, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, PHP, Laravel, MySQL

APIs & Integrations

REST API development, WhatsApp Business API, Third-party API integration

Version Control

Git & GitHub

Currently Upskilling

Python, Machine Learning fundamentals, ERP systems implementation

CERTIFICATIONS

- Responsive Web Design
- Digital Marketing
- Financial Statements
- Excel VBA and Macros
- Financial Modelling and Forecasting
- Business Statistics

SELF-DIRECTED LEARNING

All technical skills and projects listed above were acquired independently through self-study, online resources, and building real-world applications outside of formal coursework. This same self-directed approach applies to retail and management knowledge — I proactively study consumer behaviour, retail strategy, and business operations. **I do not wait to be assigned learning. I identify what I need, find it, and build with it.**
